First Aid In The Workplace

Regulatory Overview

MANDATORY LEGAL REQUIREMENT

WORK HEALTH & SAFETY ACT

The WHS ACT is a legislative document that provides a balanced and nationally consistent framework to secure the health and safety of workers and workplaces. Penalties may apply if workplaces are found not following the WHS ACT or Regulations.

Reference Document:
Work Health and Safety Act 2011

MANDATORY LEGAL REQUIREMENT

WORK HEALTH & SAFETY REGULATIONS

The WHS Regulation is a legislative instrument that varies according to time, place or circumstance. The regulations outline health and safety requirements for duty holders by environment, operation and duty/task being carried out.

Reference Document:
Health and Safety Regulation 2011

FIRST AID IN THE WORKPLACE CODE OF PRACTICE

The Code of Practice provides practical guidance for persons conducting a business or undertaking on how to comply with duties under the WHS Act and Regulations to provide adequate first aid facilities in the workplace. It includes information on first aid kits, procedures, facilities and training for first aiders.

Document: First Aid in the Workplace,
Code of Practice 2016 (Safe Work Australia)

IMPORTANT

If a relevant Act or Regulation exists, you must follow the requirements stated in the documents. Penalties may apply if workplaces are found not following the WHS ACT or Regulation.

Workplace First Aid Kits

Officers Guide

Workplace Size	High-risk	Low-risk	Number of First Aid Kits to Workers	Number of First Aid Officers
100 or more workers	No	Yes	1 First Aid Kit for first 50 workers. 2 First Aid Kits for 100 workers. 1 additional First Aid Kit for every 100 workers thereafter.	1 Officer for 25-50 workers. 2 Officers for 51-100 workers. Additional Officer for every additional 100 workers.
25 or more workers	Yes	No	1 First Aid Kit for first 25 workers. 1 additional First Aid Kit for every 50 workers thereafter.	1 Officer for up to 25 workers. 2 Officers for 25-50 workers. Additional Officer for every additional 50 workers.
10-100 workers	No	Yes	1 First Aid Kit is to be provided.	1 Officer for 25-50 workers. 2 Officers for 51-100 workers. Additional Officer for every additional 100 workers.
25 or less workers	Yes	No	1 First Aid Kit for first 25 workers. 1 additional First Aid Kit for every 50 workers thereafter.	1 Officer for 25 workers. 2 Officers for 25-50 workers. Additional Officer for every additional 50 workers.
10 or less workers			1 First Aid Kit.	Risk assessment conducted to identify the need to provide a First Aid Officer.

First Aid Kit Guide

HIGH-RISK WORKPLACE

EXAMPLE: Construction, Warehousing, Manufacturing, Laboratories

DEFINITION: A workplace where workers are exposed to hazards

RECOMMENDATION: 1 first aid kit should be provided on site for at least every 25 people

LOW-RISK WORKPLACE

EXAMPLE: Office Buildings, Home Offices, Retail Shop, Cars/Trucks

DEFINITION: A workplace where workers are NOT exposed to hazards

RECOMMENDATION: 1 first aid kit should be provided on site for at least every 50 people

First Aid Site Assessment

A periodic assessment schedule of your workplace first aid equipment will allow you to identify hazards and determine typical injuries or illness that may require rapid treatment. The assessment should also consider number of employees and work area design as first aid should be easily accessible and available within minutes of the injury location.

Assessment Guidelines For Workplace First Aid

As business operations are constantly changing to meet customer demands, your workplace first aid requirements may also require adjustments.

First Aid Recommendations

STEP 1 | HAZARDS

Identify potential causes of workplace injury and illness

STEP 2 | INJURIES

Assess the risk of workplace injury and illness

STEP 3 | REMEDY - WHAT FIRST AID IS REQUIRED

Choose the First Aid Kit that is suitable for the workplace

STEP 4 | REVIEW FIRST AID TO ENSURE EFFECTIVENESS

Choose additional Add-On Packs to ensure the whole workplace contains adequate First Aid on site at all times.

First Aid Risk Management Process

STEP 1 - IDENTIFY POTENTIAL CAUSES OF WORKPLACE INJURY AND ILLNESS

- Does the nature of the work being carried out pose a risk to people's health and safety?
- Have these risks been identified in work that is being carried out?
- Do any workers or others have pre-existing medical conditions?
- Has incident, injury and illness data been reviewed?
- Have you consulted with workers and their health and safety representatives?
- Is specialist or external assistance required?

STEP 2 - ASSESS THE RISK OF WORKPLACE INJURY AND ILLNESS

- How often does a risk have the potential to cause harm?
- What types of injuries or illnesses would the risks cause?
- How serious are the injuries or illnesses?
- Does the number and composition of workers and other people affect how first aid should be provided?
- Could the size or location of the workplace affect how first aid is provided?
- Is specialist or external assistance required?

STEP 3 - WHAT FIRST AID IS REQUIRED?

FIRST AIDERS

- How many first aiders are needed?
- What competencies do they require?
- What training do they need?

FIRST AID KITS & ROOM

- What kits or modules are needed?
- Where should they be located?
- Is other first aid equipment needed?
- Who is responsible for maintaining the kits?
- Is a first aid room or health centre required?

FIRST AID PROCEDURES

- What procedures are needed for the workplace?

STEP 4 - REVIEW FIRST AID TO ENSURE EFFECTIVENESS

Low-risk WORKPLACE

NOT exposed to hazards

FIRST AIDERS

One first aider for every
50 workers

First Aid Case Guide

Wall Mount

	ABS Plastic	Metal
Recommended For	Indoor use (Wall Mountable) For wash down areas and areas which are prone to dust	Indoor/Outdoor Use (Wall Mountable and Portable) For areas that requires maximum durability
Suitable For	Administration Areas Food Preparation Areas Manufacturing Plants Offices Schools Warehouses Laboratories	Agriculture Sheds Building Sites Construction/Commercial Sites Defence Force Mines Workshops Warehouses

Location If the workplace occupies several floors in a multi-storey building, at least one kit should be located on every second floor. Emergency floor plans displayed in the workplace should include the location of first aid kits.

Portable

	Polypropylene	Fabric Case	Fabric Case - Vehicle
Recommended For	Indoor/Outdoor (Portable and Vehicle Use) Durable and robust suitable for large work sites that are prone to dust and wet areas, which require a portable first aid kit	Indoor/Outdoor (Portable and Vehicle Use) For low dust and minimal moisture areas, which require a portable first aid kit	Personal Vehicle Use Suitable for toolbox or glovebox storage
Suitable For	Heavy Machinery Manufacturing Plants Tradesman Vehicles Warehouses Workshops	Administration Food Preparation Areas Manufacturing Plants Offices Schools Warehouses Laboratories	Couriers Sales Reps Uber/Taxi Drivers Tradesmen Personal Vehicles

Location In the event of a serious injury or illness, quick access to the kit is vital.

First aid kits should be kept in a prominent, accessible location and able to be retrieved promptly.

Access should also be ensured in security-controlled workplaces.

A portable first aid kit should be provided in the vehicles of mobile workers if that is their workplace (for example, couriers, taxi drivers, sales representatives and bus drivers).

These kits should be safely located so as not to become a projectile in the event of an accident.

Go Custom!

Brady offers custom first aid solutions tailored to your specific work environment using industry-standard Trafalgar kits.

Whether you need to meet unique safety requirements for a high-risk site or simply want to elevate your professional presence, we build solutions to your specifications.

By adding your corporate logo and matching your company colours, we help you create highly visible, compliant kits that showcase your commitment to workplace safety while maintaining a cohesive and professional look on any job site.

More than just compliance - use your custom first aid kits to:

PROMOTE DUTY OF CARE

Set the standard for workplace health, safety, and compliance

PROTECT & REWARD YOUR TEAM

Gift them to employees, contractors, or site visitors to actively support internal safety initiatives

ELEVATE CLIENT RELATIONSHIPS

Impress key customers or welcome new corporate partners on board with a premium, practical asset

SUPPORT THE COMMUNITY

Donate custom kits to local charities, sporting clubs and non-profits

Contact your local distributor today and talk about your first aid requirements.

Refill content only packs are great to keep your kit up to date.

These packs contain all the same contents that are originally in the kits and can be applied for National Workplace First Aid Kits.

Contact your local distributor today and reference Part Number **873853** to order.

First Aid Modules

Under WHS regulations, a standard first aid kit is only a baseline for minor injuries; a “one-size-fits-all” approach is insufficient for industry-specific hazards. Workplaces must conduct a risk assessment evaluating their specific operations, hazards, size, and location. If unique risks are identified, targeted first aid modules must be added to supplement the standard kit and ensure full compliance. Our First Aid Modules are colour-coded and transparent for rapid identification, they offer a portable, highly visible solution to enhance standard kits in high-risk environments.

How Do Modules Work?

STEP 1

Assess your workplace risk

STEP 2

Select a First Aid Kit

STEP 3

Select required module

Brady's first aid modules range includes:

Burns Module

- **18-Piece module** contains essential contents for effectively treating minor heat burns
- Perfect addition for electrical, manufacturing and commercial kitchen environments

KIT CONTAINS

- 1 x Bandage - Conforming 7.5cm

- 1 x Bandage - Snake Bite Indicator 10.5m stretched
- 1 x Bandage - Triangular 110cm x 110cm x 155cm
- 1 x Instant cold pack - Small
- 1 x Snake Bite & Insect Stings First Aid Guidance and Contents Card

First Aid Stations

Trafalgar's specialised first aid stations offer a comprehensive, high-volume response for workplaces with constant exposure to specific risks, such as burns, eye injuries or outdoor and remote hazards. Unlike our smaller "grab and go" modules, these stations are housed in durable, wall-mountable cases for immediate access. Stations are stocked with essential supplies like hydrogels and sterile irrigation solutions. These stations are designed to be installed alongside a core Workplace First Aid Kit to ensure full regulatory compliance and targeted care for high-risk environments

How Do Stations Work?

STEP 1

Assess your workplace risk

STEP 2

Select a First Aid Kit

STEP 3

Select required station

Trafalgar's first aid stations range includes:

Trafalgar Burns Station

- ▶ **37-Piece station** includes a variety of burn dressings, gels and sterile bandages
- ▶ Ensures prompt and effective first aid to help minimise the severity of injuries while waiting for professional medical attention
- ▶ Compact, durable case for easy storage and quick access
- ▶ Ideal for high-risk areas such as manufacturing, electrical workplaces and commercial kitchens
- ▶ Case features a convenient bracket for easy mounting and access

KIT CONTAINS

- ▶ 2 x Bandage - Conforming 7.5cm
- ▶ 16 x Burn Hydrogel Sachet 3.5g
- ▶ 2 x Burns First Aid Guidance Only Card
- ▶ 4 x Dressing - Burn Hydrogel 10cm x 10cm
- ▶ 1 x Dressing - Burns Sterile 70cm x 75cm
- ▶ 2 x Dressing - Non-Adherent 10cm x 10cm
- ▶ 1 x Gloves - Nitrile (Pair)
- ▶ 6 x Sterile Plastic Sheet - Medium 60cm x 45cm
- ▶ 3 x Sterile Plastic Sheet - Large 61cm x 91cm

Trafalgar Emergency Eye Wash Station

- ▶ **22-Piece station** provides instant relief for eye irritations or foreign particles
- ▶ Compact and durable case for easy storage access
- ▶ Includes sterile eye wash solutions and dressings
- ▶ Equipped with all necessary tools for rapid and effective eye irrigation in emergencies
- ▶ Case features a bracket for easy mounting and access

KIT CONTAINS

- ▶ 1 x Adhesive Tape Non-Woven - 1.25cm x 5m
- ▶ 2 x Bandage - Conforming 7.5cm x 1.8m

**FEATURING OVER 100
FIRST AID SUPPLIES**

Supplies

After completing your worksite assessments, you may find it necessary to restock your first aid kit or require additional items to adequately manage specific risks. Depending on the nature of the work, certain areas may require extra supplies - such as bandages, splints, dressings, and eye wash units - to address potential injuries. To remain compliant with Safework Australia's Code of Practice you should regularly check your kit at least every 6 to 12 months (or after each use) to ensure that all items are present, sterile, and within their expiry dates.

Bandages & Tapes

First Aider's Choice provides high quality first aid bandages and tapes.

Featuring non-woven tapes, sports tapes, crepe bandages, conforming bandages, triangular bandages and splints, our First Aider's Choice range will be your first choice for first aid.

First Aider's Choice support bandages

Medium Support Crepe Bandages

- Available in 5 sizes
- Conforms to limb
- Ideal addition to first aid kits
- Supports joints after sprains and strains

Part No.	Description	Dimensions	Standard Pack
821175	Medium Support Crepe Bandage - 2.5cm	2.5cm x 2m	1
871916	Medium Support Crepe Bandage - 5cm	5cm x 2cm	1
871917	Medium Support Crepe Bandage - 7.5cm	7.5cm x 2cm	1
871918	Medium Support Crepe Bandage - 10cm	10cm x 2cm	1
871919	Medium Support Crepe Bandage - 15cm	15cm x 2cm	1

Heavy Support Crepe Bandages

- Available in 4 sizes
- Extra elastic for firm support
- Washable and reusable
- Suitable for sprains, strains and fractures

Part No.	Description	Dimensions	Standard Pack
871912	Heavy Support Crepe Bandage - 5cm	5cm x 2cm	1
871913	Heavy Support Crepe Bandage - 7.5cm	7.5cm x 2cm	1
871914	Heavy Support Crepe Bandage - 10cm	10cm x 2cm	1
871915	Heavy Support Crepe Bandage - 15cm	15cm x 2cm	1

Health Warning: Always read the label and follow the Directions For Use.

First Aider's Choice triangular bandages

Triangular Bandages

Both disposable and reusable cloth versions are available to suit different needs. Triangular cloth bandages are essential for heavy-duty support and the immobilisation of fractured or injured limbs. Disposable triangular bandages provide a versatile, single-use option ideal for emergency dressing and the treatment of open wounds.

1. Sling

- ▶ Support the injured arm
- ▶ Place the bandage between the arm and the body
- ▶ Upper corner goes around neck and ties to corner
- ▶ Fold bandage on the elbow to ensure a firm fixation

2. Controlling bleeding and pressure

- ▶ Apply a dressing pad over the wound
- ▶ Fold triangular shape twice to form a broad strip
- ▶ Wrap the bandage around the area and tie securely

3. Head Injury

- ▶ Apply a dressing pad over the wound
- ▶ Centre the bandage over the dressing
- ▶ Wrap the bandage fully around the head and tie the ends securely

Part No.	Description	Material	Colour	Dimensions (H x W)	Standard Pack
871900	Triangular Bandage - Disposable	Polypropylene Non-Woven	White	110cm x 155cm	1
871901	Triangular Bandage - Cloth	100% Cotton Cloth	White	110cm x 155cm	1

Bandage Size Advice

BANDAGE WIDTH FOR USE

- 2.5cm** ▶ Perfect width for fingers or toes
- 5cm** ▶ Suitable width for medium sized limbs or joints like ankles and wrists
- 7.5cm** ▶ Width works well for wrapping wrists, ankles, or elbows
- 10cm** ▶ Width suited for medium-sized limbs such as the arms, lower legs, or securing dressings on joints like the elbow or ankle
- 15cm** ▶ Suitable width for very large areas such as the thighs, chest, or shoulders where broad coverage and even pressure distribution are required

Health Warning: Always read the label and follow the Directions For Use.

First Aider's Choice bandages

Conforming Bandages

- Available in 4 sizes
- Conforms to limb
- Quality and lightweight
- Supports and relieves injured joints

Part No.	Description	Dimensions	Standard Pack
871909	Conforming Bandages - 2.5cm	2.5cm x 1.8m	1
871908	Conforming Bandages - 5cm	5cm x 1.8m	1
871907	Conforming Bandages - 7.5cm	7.5cm x 1.8m	1
871906	Conforming Bandages - 10cm	10cm x 1.8m	1

Snake Bite Indicator Bandage

- 3.6m (unstretched), 10.5m (stretched)
- High-grade heavyweight conforming bandage
- Designed for Australian snake and funnel-web spider bites
- Continuous indicators marked on the bandage
- Rectangle indicator becomes a square to let you know optimal tension has been achieved

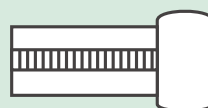

Part No.	Description	Dimensions (W)	Standard Pack
102820	Snake Bite Indicator Bandage	100mm	1

Indicator Bandage Advice

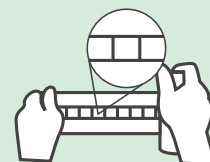

DIRECTIONS FOR USE

- Ensure the casualty stays calm
- Call triple zero (000)
- Do not wash, suck or cut the bite area
- Place bandage over the bite area
- Wrap 3 times at correct tension to show squares

Unstretched

- Rectangular indicators

Stretched - correct tension

- Square indicators

- Wrap the bandage to the end of affected limb
- Start an ascending spiral to as high up the limb as possible at correct tension.
- Secure with bandage clips

BradyID.com.au/snake-bite-indicator-bandage.html

Health Warning: Always read the label and follow the Directions For Use.

First Aider's Choice splints

Splint - 90cm x 10cm

- ▶ Ideal to immobilise injuries
- ▶ Maintains its form to provide consistent support
- ▶ Resistant to water and can be reused multiple times
- ▶ Adjustable to accommodate all sizes
- ▶ Roll can be easily cut to suit specific needs or applications

Finger Splint

- ▶ Helps to immobilise the injured finger, aiding in the healing process
- ▶ Can be used multiple times and is water resistant
- ▶ Designed to retain its shape, providing consistent support for the finger
- ▶ Adjustable to accommodate all finger sizes for a secure and comfortable fit

Part No.	Description	Material	Colour	Dimensions	Standard Pack
35126	Splint - 90cm x 10cm	Aluminum Alloy/Closed-Cell Foam	Blue	100mm x 900mm (H x W)	1
35127	Finger Splint	Malleable Aluminum/Closed-Cell Foam	Blue	50mm x 100mm x 4mm (H x W x D)	1

Health Warning: Always read the label and follow the Directions For Use.

First Aider's Choice tapes

Sports Tape

- ▶ Available in 2 sizes
- ▶ Zinc oxide rigid tape
- ▶ Hand tearable
- ▶ Ideal for ankles, wrists and elbows
- ▶ 15m roll in tan colour

DIRECTIONS FOR USE

1. Clean off any dirt, body oil and residue before strapping
2. Cover any rash or broken skin with a non-adherent wound dressing
3. Strap the joint in a resting position
4. Tear or cut off the required length of sports tape into strips before application
5. For maximum support, overlap each layer of strapping tape

Part No.	Description	Dimensions (W x L)	Standard Pack
881188	Sports Tape - Medium	38mm x 15m	1
881189	Sports Tape - Large	50mm x 15m	1

Zinc Oxide Adhesive Tape

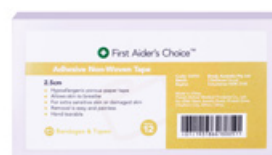

- ▶ Available in 2 sizes
- ▶ Rigid tan coloured tape
- ▶ Highly durable and long lasting
- ▶ Porous and allows skin to breath

Part No.	Description	Dimensions (W x L)	Standard Pack
871923	Zinc Oxide Adhesive Tape	2.5cm x 5m	1
871924	Zinc Oxide Adhesive Tape	1.25cm x 5m	1

Adhesive Tape Paper

- ▶ Porous paper tape
- ▶ Hand tearable
- ▶ Tape comes with dispenser

Part No.	Description	Dimensions (W x L)	Standard Pack
54950	Adhesive Tape Paper	2.5cm x 5m	1

Health Warning: Always read the label and follow the Directions For Use. If symptoms persist see your Healthcare professional.

Cleansing & Cooling

First Aider's Choice provides high quality cleansing and cooling products.

Featuring wound wipes, iodine wipes, alcohol wipes, salines, hydrogels and instant ice packs for treating a wide range of injuries.

First Aider's Choice reusable hot and cold packs

Reusable Hot & Cold Packs

- ▶ Use reusable hot and cold packs for targeted relief of pain, inflammation and soft tissue injuries
- ▶ Medium and large size include toweleling sleeve
- ▶ **Cold application:** Helps reduce swelling, inflammation and pain associated with sprains, strains and minor injuries
- ▶ **Heat Application:** Provides soothing relief for muscle tension, stiffness, cramps and chronic pain

Part No.	Description	Material	Colour	Dimensions (W x L)	Standard Pack
29500	Reusable Hot/Cold Pack - Small: 300g	Nylon	Blue	150 x 265mm	1
36650	Reusable Hot/Cold Pack - Medium: 450g	Nylon	Blue	130 x 280mm	1
36625	Reusable Hot/Cold Pack - Large: 700g	Nylon	Blue	170 x 280mm	1

FIRST AID | REUSABLE HOT & COLD PACKS

Reusable hot and cold packs are incredibly versatile, but choosing the right size ensures the temperature is distributed effectively and safely across the target area

1. Small size

- ▶ Best for children and targeted areas like the face, hands, feet, or minor bumps and scrapes
- ▶ Highly portable and mould to tight contours without overwhelming small areas with excess weight or intense temperatures

2. Medium size

- ▶ An "all-purpose" choice is perfect for everyday injuries, wrapping limbs, joints, forearms, calves, or across the neck and shoulders
- ▶ Versatile size provides coverage to blanket joints while flexible to strap securely

3. Large size

- ▶ Perfect for broad areas like the back, abdomen, and large muscle groups, these provide maximum coverage without needing to be shifted
- ▶ Large enough to retain temperature for longer than smaller alternatives

Health Warning: Always read the label and follow the Directions For Use. Do not apply directly to broken or sensitive skin. Always use a cover or towel between the pack and skin. Do not overheat - may cause burns or pack damage. Keep out of reach of children. If leaking or damaged, discontinue use. If gel is exposed to the skin or eyes, rinse thoroughly with water immediately. The gel is non-toxic.

Instant Heat Pack

- Provides approximately 20 minutes of heat
- Soothes sore muscles and joint aches
- Can be useful hand warmers

Part No.	Description	Dimensions (H x W)	Standard Pack
29530	Instant Heat Pack	230 x 155mm	1

Instant Ice Pack

- Comes in 2 sizes
- Quick and instant cooling
- Double-welded material makes it highly robust
- Provides up to 20 minutes of cooling

Part No.	Description	Dimensions (H x W)	Standard Pack
871925	Instant Ice Pack - Small	135 x 110mm	1
871926	Instant Ice Pack - Large	155mm x 135mm	1

Ice Compress Film Wrap

- Holds hot or cold packs firmly in place while providing therapeutic compression to reduce post-injury swelling
- Features a durable handle for easy application and a flexible film that moulds comfortably to body contours
- Each roll measures 10cm in width and 150m in length, offering plenty of material for multiple uses

Part No.	Description	Dimensions (L x W x D)	Standard Pack
879408	Ice Compress Film Wrap	260 x 80 x 80mm	1

Health Warning: Always read the label and follow the Directions For Use. Do not apply directly to broken or sensitive skin. Always use a cover or towel between the pack and skin. Do not overheat - may cause burns or pack damage. Keep out of reach of children. If leaking or damaged, discontinue use. If gel is exposed to the skin or eyes, rinse thoroughly with water immediately. The gel is non-toxic.

First Aider's Choice cleansing wipes

Premium Fabric Dressing Strip

- **1 Roll**
- Non-stick wound pad
- Flexible fabric dressing
- Industrial grade strength

Part No.	Description	Dimensions (L x W)	Standard Pack
872256	Premium Adhesive Fabric Strip	1m x 72mm	1
872255	Premium Adhesive Fabric Strip	0.5m x 60mm	1

Fabric vs Plastic Strips

When deciding between First Aider's Choice Premium Fabric and Premium Plastic Strips:

It comes down to wound location and activity level

- Choose **flexible** fabric strips if you need something to handle heavy movement, tough workdays, and awkward joints
- For simple, everyday protection on flat skin surfaces like arms or legs, the First Aider's Choice Premium **plastic** strips are the ideal choice

Health Warning: Always read the label and follow the Directions For Use.

Premium Fabric Strips

► **Pack of 50**

- Extra-wide fabric strips
- Non-stick wound pad
- Flexible fabric dressing
- Industrial grade strength

Part No.	Description	Dimensions (W x L)	Standard Pack
872260	Premium Fabric Strips	25 x 72mm	50

Premium Fabric Fingertip & Knuckle Strips

► **Pack of 40**

- Fingertip and knuckle strips
- Non-stick wound pad
- Flexible fabric dressing
- Industrial grade strength

Part No.	Description	Dimensions (W x L)	Standard Pack
872261	Premium Finger & Knuckle Strips	Fingertip: 42 x 72mm Knuckle: 38 x 72mm	40

Premium Fabric Fingertip Strips

Go Custom!

Brady offers custom first aid solutions tailored to your specific work environment using industry-standard Trafalgar kits.

Whether you need to meet unique safety requirements for a high-risk site or simply want to elevate your professional presence, we build solutions to your specifications.

By adding your corporate logo and matching your company colours, we help you create highly visible, compliant kits that showcase your commitment to workplace safety while maintaining a cohesive and professional look on any job site.

More than just compliance - use your custom first aid kits to:

PROMOTE DUTY OF CARE

Set the standard for workplace health, safety, and compliance

PROTECT & REWARD YOUR TEAM

Gift them to employees, contractors, or site visitors to actively support internal safety initiatives

ELEVATE CLIENT RELATIONSHIPS

Impress key customers or welcome new corporate partners on board with a premium, practical asset

SUPPORT THE COMMUNITY

Donate custom kits to local charities, sporting clubs and non-profits

Contact your local distributor today and talk about your first aid requirements.

MAKE A REAL DIFFERENCE AS A FIRST RESPONDER

A close-up photograph of a person's arm being treated. A person wearing white gloves is applying a white bandage to a wound on the arm. The background is a green wall.

**FEATURING OVER 60
FIRST AID ROOM
& EMERGENCY
RESPONSE PRODUCTS**

Room & Rescue

Providing appropriate administering and rescue equipment such as immobilisation, resuscitation and defibrillation can reduce the risk of permanent injury or fatality. A first aid room is recommended for low-risk workplaces (200 workers or more) and high-risk workplaces (100 workers or more).

HeartSine® Samaritan® Defibrillators

HEARTSINE® SAMARITAN® PAD 500P

- ▶ **Easy-to-use:** This easy-to-use semi-automatic AED provides real-time visual and verbal cues to help you take control during an emergency cardiac arrest resuscitation
- ▶ **Detects CPR Rhythm:** Provides real-time verbal and visual feedback on the rate and force of the compressions
- ▶ **Innovative design:** Semi-automatic shock delivery is guided by innovative visual and verbal instructions
- ▶ **Lightweight and portable design:** Weighs 1.1kgs. Includes a carry case
- ▶ **Protection:** IP56 rating means it has the highest level of protection against dust and water
- ▶ **Ready for use:** The device runs automatic weekly self-checks
- ▶ **Warranty:** Competitive 8-year warranty. Software updates via USB
- ▶ **Expiration date:** Software updates are via a simple USB connection. 4-Year electrode and battery life from date of manufacture

▶ 878007

Equip your workplace for emergencies with the HeartSine Samaritan **500P Semi-Automatic AED**.

This lightweight, portable AED is built to withstand dust and water, offering immediate verbal and visual feedback on CPR compression force and speed.

HEARTSINE® SAMARITAN® PAD 350P

- ▶ **Easy-to-use:** Semi-automatic AED with real-time visual and verbal cues for emergency cardiac arrest resuscitation
- ▶ **Innovative design:** Semi-automatic shock delivery with innovative visual and verbal instructions
- ▶ **Lightweight and portable design:** Weighs 1.1kgs. Includes a carry case
- ▶ **Protection:** IP56 rating provides high protection against dust and water
- ▶ **Ready for use:** The device conducts automatic weekly self-checks
- ▶ **Warranty:** Competitive 8-year warranty. Software updates via USB
- ▶ **Expiration date:** 4-year electrode and battery life from manufacture date

▶ 878008

Equip your workplace for emergencies with the HeartSine Samaritan **350P Semi-Automatic AED**.

This lightweight, portable AED is built to withstand dust and water, providing clear visual and verbal prompts through every step of the resuscitation and CPR process.

Advisory Statements:

1. Call 000 immediately and ask for an ambulance if you suspect someone has had a sudden cardiac arrest
2. An AED will only deliver a shock to a person with a shockable rhythm
3. Follow any verbal or visual prompts displayed on the AED until medical treatment arrives
4. Additional emergency treatment such as CPR and rescue breaths may be required until medical treatment arrives

HEARTSINE® SAMARITAN® PAD 360P

- **Easy-to-use:** Automatic AED with real-time visual and verbal cues for emergency cardiac arrest resuscitation
- **Innovative design:** Automatic shock delivery with innovative visual and verbal instructions
- **Lightweight and portable design:** Weighs 1.1kgs. Includes a carry case
- **Protection:** IP56 rating provides high protection against dust and water
- **Ready for use:** The device conducts automatic weekly self-checks
- **Warranty:** Competitive 8-year warranty. Software updates via USB
- **Expiration date:** 4-year electrode and battery life from manufacture date

► 878009

Equip your workplace for emergencies with the HeartSine Samaritan **360P Fully-Automatic AED**.

This lightweight, portable AED is built to withstand dust and water, providing clear visual and verbal prompts through every step of the resuscitation and CPR process

HeartSine® Accessories

BATTERY PAD-PAK: ADULT

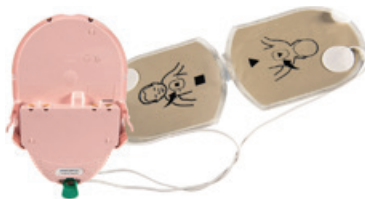

- HeartSine's practical Pad-Pak™ incorporates the battery and electrodes in a single-use cartridge - meaning only one expiration date to monitor and only one item to replace after use
- This Adult-Pak is suitable for use on adults and children over 8 years old or weighing more than 25kg (55 lbs)

► 878010

**BATTERY PAD-PAK: CHILD**

- HeartSine's practical Pad-Pak™ incorporates the battery and electrodes in a single-use cartridge - meaning only one expiration date to monitor and only one item to replace after use
- This Pediatric-Pak is for children younger than 8 years or weighing less than 25kg (55 lbs)

► 878011

**WIRE WALL BRACKET**

- Easy to access wall-mount bracket ensures that your defibrillator is kept safe at all times
- Bracket should be placed in a convenient and accessible location for use in an emergency

877886	CR2 Bracket White	1
877887	CR2 Bracket Green	1
877943	Defibrillator Cabinet	1
880337	Defibrillator Cabinet With Alarm	1

AED Prep Kit

- Contains essential items to assist in the event of a cardiac arrest, such as trauma scissors to remove clothing, a CPR mask, surgical razor for the removal of chest hair, a wound wipe and disposable gloves
- Ensure that your defibrillators are equipped with all of the essential accessories when an emergency occurs

KIT CONTAINS

- 1 x CPR Resus Mask - Hard Case
- 2 x Gloves - Nitrile (Pair)
- 1 x Surgical Razor
- 1 x Universal Trauma Scissors
- 1 x Wound Wipe

Part No.	Description	Dimensions (L x H x W)	Standard Pack
878978	AED Prep Kit	21 x 14 x 6cm	1

Waterproof AED Case

- Designed to securely store your AED in the most demanding environments
- Airtight and watertight case made of thick ABS polypropylene resin
- Case suits most AED models
- Ideal for marine, transport or outdoor use

Part No.	Description	Dimensions (L x H x W)	Standard Pack
880858	Waterproof AED Case	106 x 350 x 350mm	1

Adjustable Cervical Collars

- ▶ Provides immobilisation in cases of suspected neck or spinal injuries
- ▶ Adjustable cervical collar has 4 locking sizes
- ▶ Foam collar is easily secured with velcro tab

Part No.	Description	Standard Pack
871293	Adjustable Cervical Collar	1
877791	Foam Cervical Collar - Medium	1

Resuscitation Mask

- ▶ Silicone mask with storage case
- ▶ Features a see-through face piece
- ▶ Replaceable one-way valve which directs expired air away from operator

Part No.	Description	Standard Pack
858280	Mask with Valve & Carry Case	1
858281	Replacement Valve	1

Syringe Picker

- ▶ Easy and effective way of picking up syringes
- ▶ 15cm long
- ▶ Ensure pick-up occurs at the crossmember of syringe

Part No.	Description	Dimensions (L)	Standard Pack
853131	Syringe Picker	15cm	1

Penlight Examination Torch

- ▶ Ideal for testing pupil dilation and illuminating first aid injuries
- ▶ Pupil size comparison gauge on side
- ▶ Built-in pocket clip for on-the-go use
- ▶ Comes pre-loaded with 2x AA batteries
- ▶ Sealed battery compartment offers 3-6 months of reliable use (batteries are non-replaceable)

Part No.	Description	Dimensions (L)	Standard Pack
854106	Examination Torch	10cm	1

Biohazard Waste Bags

- ▶ Hi-visibility bags
- ▶ Choose from self-seal or heavy duty bags
- ▶ Identify infectious waste and segregate biohazardous material
- ▶ Marked for easy identification
- ▶ Ensures correct disposal of waste

Part No.	Description	Dimensions (W x H)	Standard Pack
854015	4L Self-Seal Bio-hazard Bag	250 x 300mm	100
879722	5L Clinical Waste Bio-hazard Bag	225 x 380mm	100

880923	Disposable Pillow Case Only	620 x 440mm	100

Hospital Blanket

- 100% cotton cellular blanket
- Helps create a comfortable environment for patients
- Hygiene efficiency and light-weight
- Open weave blanket to retain body warmth
- Colour: White

Part No.	Description	Dimensions (L x W)	Standard Pack
854126	Hospital Blanket	2300 x 1880mm	1

Bedsheet Roll

- Provides hygienic surface protection for patient examination beds
- Single-ply tissue paper offering a linen-like feel
- Single-patient use

Part No.	Description	Dimensions (W x L)	Standard Pack
854119	Bedsheet Roll	565mm x 83m	1 Roll

Bedsheet Roll Dispenser

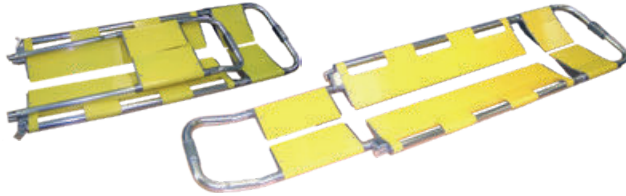

- Stainless steel dispenser with toothed edge for custom-length tearing
- Ideal for examination beds, stretchers and change tables
- Designed for easy wall or bed mounting

Part No.	Description	Dimensions (L x W x H)	Standard Pack
854120	Bedsheet Roll Dispenser	675 x 203 x 168mm	1

Scoop Stretcher

- Portable stretcher constructed of aluminium
- Designed to immobilise casualty and minimise trauma
- Hinged at both ends and includes restraints
- **Weight:** 9kg
- **Load Capacity:** 150kg

Part No.	Description	Dimensions (L x W x H)	Standard Pack
871354	Scoop Stretcher	2000 x 420 x 70mm	1

Nylon Stretcher Restraints

- **Pack of 3**
- Designed to secure patients on stretchers
- Used for stretcher boards such as Flat Spine Board, Basket Stretcher and Back Board

Part No.	Description	Dimensions (W x L)	Standard Pack
873188	Nylon Stretcher Restraints	5cm x 2m	1

Flat Spine Board

- Tough, durable and lightweight
- Designed to remain afloat in water, provided the sealing plug is properly installed
- X-Ray translucent
- Multiple handholds allow for ease of lifting and maneuvering
- Includes nylon restraint straps for secure patient transport
- Use in cases of trauma where there is a possibility of spinal injury
- **Weight:** 7.5kg
- **Load Capacity:** 150kg

Part No.	Description	Dimensions (L x W x H)	Standard Pack
871355	Flat Spine Board	1840 x 450 x 60mm	1

Back Board

- Tough, durable and lightweight
- Designed to remain afloat in water, provided the sealing plug is properly installed
- Includes nylon restraint straps for secure patient transport
- Multiple handholds allow for ease of lifting and maneuvering
- **Weight:** 7.5kg
- **Load Capacity:** 150kg

Part No.	Description	Dimensions (L x W x H)	Standard Pack
871356	Back Board	1840 x 450 x 60mm	1

Additional freight charges may apply.

Basket Stretcher

- ▶ Light and portable
- ▶ Splits into two sections for compact storage
- ▶ A Flat Spine Board, Back Board or Scoop Stretcher should be used to aid patient lifting in and out
- ▶ **Weight:** 20kg
- ▶ **Load Capacity:** 150kg

Part No.	Description	Dimensions (L x W x H)	Standard Pack
871357	Basket Stretcher	2180mm x 640mm x 190mm	1

Light-weight Pole Stretcher

- ▶ Ideal basic emergency first aid stretcher
- ▶ Sturdy aluminium folding pole construction
- ▶ Comes in portable carry bag
- ▶ Includes nylon restraint straps for secure patient transport
- ▶ **Weight:** 12kg
- ▶ **Load Capacity:** 150kg

Part No.	Description	Dimensions (L x W x H)	Standard Pack
854133	Lightweight Pole Stretcher	Folded: 1100 x 180 x 110 mm Unfolded: 2210 x 530 x 150 mm	1

Additional freight charges may apply.

- ▶ Keeps your workspace clean, controlled and compliant

Part No.	Description	Standard Pack
848908	Body Fluid Clean-Up Powder Sachet	1

First Aid Room Requirements

FIRST AID ROOM REQUIREMENTS

According to the latest Code Of Practice, First Aid in the Workplace, a first aid room is recommended for:

**LOW-RISK WORKPLACES
WITH 200 WORKERS OR MORE**

**HIGH-RISK WORKPLACES
WITH 100 WORKERS OR MORE**

A first aid room should be established at the workplace if a risk assessment indicates that it would be difficult to administer appropriate first aid unless a first aid room is provided.

For example, workplaces where there is a higher risk of serious injury or illness occurring that would not only require immediate first aid, but also further treatment by an emergency service, may benefit from having access to a dedicated first aid room.

The contents of a first aid room should suit the hazards that are specific to the workplace.

The location and size of the room should allow easy access and movement of injured people who may need to be supported or moved by a stretcher or wheelchair.

First Aid Room Reference List

FIRST AID ROOM SHOULD:

✓	Be located within easy access to a sink with hot and cold water (where this is not provided in the room)	✓	Be well-lit and ventilated
✓	Offer privacy via screening or a door	✓	Have an appropriate floor area (14 square metres as a guide)
✓	Be easily accessible to emergency services (minimum door width of 1 metre for stretcher access)	✓	Have an entrance that is clearly marked with first aid signage

Source: Code of Practice, First Aid in the Workplace

The background image shows a grey wall with several safety signs and pieces of equipment. On the left, there is a red fire hose reel with a red sign that says 'FIRE HOSE REEL' and features a fire hose icon. To the right, there is a green 'FIRST AID' sign with a white cross. Below that, there is a larger green sign that says 'FIRST AID KIT' with a white cross. At the bottom right, there is a red first aid kit bag. The overall scene is a typical workplace safety area.

**FEATURING OVER 60
FIRST AID SIGNS**

Signs & Visuals

It's important to ensure first aid officers and equipment are easily located in an emergency. Displaying well-recognised, standardised first aid signs and posters can assist in locating first aid equipment and administering first aid when required. Gear such as hats and vests are also important in the event of evacuation.

First Aid Posters

Electrical Shock Survival Sign

Display the Electric Shock Survival sign in an area where your employees can effectively use it in the event of an emergency. This sign is manufactured to comply with the Australian Resuscitation Council Guidelines and is also available in reflective metal which is suitable for dark areas such as mines.

Part no.	Material	Dimensions
833590	Polypropylene	450 x 600mm (W x H)
835989	Metal	450 x 600mm (W x H)
851258	C1 Reflective Metal	450 x 600mm (W x H)
851259	C2 Reflective Metal	450 x 600mm (W x H)
851738	Metal	600 x 900mm (W x H)

* It is recommended that this sign is used in conjunction with a formal first aid training course.

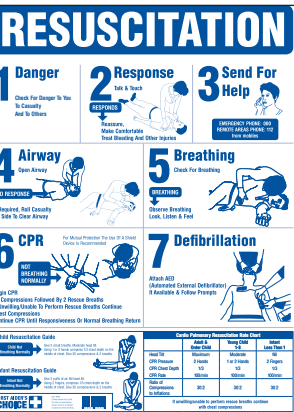

Workplace Safety Posters

These posters are laminated for extra durability and have easy to follow instructions. Display in prominent positions around your workplace to provide adequate instruction in the event of a workplace emergency or accident and to promote health and safety workplace practices.

Part no.	Material	Dimensions
844766	Polypropylene	375 x 225mm (W x H)
855383	Polypropylene	600 x 450mm (W x H)

* It is recommended that this sign is used in conjunction with a formal first aid training course.

Did You Know?

The vast majority of everyday injuries occur in the comfort of our own kitchens, backyards, and living rooms.

Having the right medical supplies within arm's reach doesn't just offer convenience, it prevents minor mishaps from turning into major emergencies.

The Australian Institute of Health and Welfare (AIHW) & St John Ambulance Australia Advocacy & Training Reports

Always read the label and follow the Directions For Use.

THE PREFERRED CHOICE FOR FIRST AID

ALL THE SAFETY AND IDENTIFICATION PRODUCTS YOU NEED

Consolidating suppliers can save you time and money. With so many brands under the one roof, we have over 50,000 products available. We want to make sure every single customer walks away from Brady with exactly what they are looking for.

IN-HOUSE MANUFACTURING AND FAST DELIVERY

We know speed of delivery is important. Our in-house production department runs at full speed every day, manufacturing a range of products from safety signs and labels, to engraved tags and wire identification products.

We have a dedicated team of 30 operators working 10 machines daily, so we can provide our customers with a quick turn around on orders.

OUR COMPLIANCE EXPERTISE

Our specialty is our ability to ensure our customers' peace of mind, knowing that their compliance obligations are fulfilled. We achieve this by delivering the latest information on relevant workplace safety, supported by our national sales team who are your trusted business advisors for workplace safety and compliance.

A CULTURE OF MAKING IT EASY FOR THE CUSTOMER

Our employees share common values like integrity and respect. We put our customer at the centre of everything we do, working with them to find solutions for their needs. We do this with friendly service because that's who we are.

WE OFFER ONLY BEST-IN-CLASS PRODUCTS

We ensure we partner with suppliers who share our sense of integrity and ethical practices. We partner with best-in-class local and overseas vendors, making sure we bring to market quality products that our customers can rely on.

UNIQUE PRODUCT OFFERING

Brady's global Research and Development with over 250 technologists allow us to focus on areas of strength and differentiation, expand our portfolio of products and continually invest in new technology platforms.

The content is provided as a general recommendation and should not be used as a substitute for information provided by your local State or Territory Work Health & Safety regulatory authority. The onus for assessing each workplace rests with all Australian individual workplaces and sites managing their own risk profile. Brady /Trafalgar First Aid makes no representation as to verifying the compliance rating of each workplace/site in respect of the Safe Work Australia First Aid Code of Practice. For more information go to safeworkaustralia.gov.au
