PRODUCT CATALOGUE

FOUNDED OVER
100
YEARS

Brady is the undisputed expert in safety and identification solutions, helping businesses to be safe, secure and productive.

MAKING FIRST AID EASY

We make it easier for you to assess your workplace first aid needs and provide market leading solutions to suit your work environment. From work vehicles, office, warehouse and building sites to your first aid room facility, Brady can help you comply with workplace legislation and guidelines.

TRUSTED BY AUSTRALIANS FOR OVER 70 YEARS

Originally founded by two war veterans in the mid 1940's, Trafalgar First Aid and has been delivering Workplace First Aid Kits and Products to Australian businesses for over 70 years. With over 20,000 products in its range, Trafalgar has become a leader in workplace first aid solutions.

CUSTOMISATION

We recognise that every workplace is different and may require different first aid to suit its environment. Our experienced product development team can personalise a kit to your requirements. Whatever your choice, you are assured of a quality product that will meet your needs. (minimum order quantities may apply.)

FIRST AID IN THE WORKPLACE

REGULATORY OVERVIEW

MANDATORY LEGAL REQUIREMENT

WORK HEALTH & SAFETY ACT

The WHS ACT is a legislative document that provides a balanced and nationally consistent framework to secure the health and safety of workers and workplaces. Penalties may apply if workplaces are found not following the WHS ACT or Regulations.

Reference Document:
Work Health and Safety Act 2011

MANDATORY LEGAL REQUIREMENT

WORK HEALTH & SAFETY REGULATIONS

The WHS Regulation is a legislative instrument that varies according to time, place or circumstance. The regulations outline health and safety requirements for duty holders by environment, operation and duty/task being carried out.

Reference Document:
Health and Safety Regulation 2011

FIRST AID IN THE WORKPLACE CODE OF PRACTICE

The Code of Practice provides PRACTICAL GUIDANCE for persons conducting a business or undertaking on how to comply with duties under the WHS Act and Regulations to provide adequate first aid facilities in the workplace. It includes information on first aid kits, procedures, facilities and training for first aiders.

Document: First Aid in the Workplace, Code of Practice 2016 (Safe Work Australia)

IMPORTANT

If a relevant Act or Regulation exists, you must follow the requirements stated in the documents. Penalties may apply if workplaces are found not following the WHS ACT or Regulation.

WORKPLACE FIRST AID KITS AND OFFICERS GUIDE

Workplace Size	High Risk	Low Risk	Number of First Aid Kits to Workers	Number of First Aid Officers
100 or more workers	No	Yes	1 First Aid Kit for first 50 workers. 2 First Aid Kits for 100 workers . 1 additional First Aid Kit for every 100 workers thereafter.	1 Officer for 25-50 workers. 2 Officers for 51-100 workers. Additional officer for every additional 100 workers.
25 or more workers	Yes	No	1 First Aid Kit for first 25 workers. 1 additional First Aid Kit for every 50 workers thereafter.	1 Officer for up to 25 workers. 2 Officers for 25-50 workers. Additional Officer for every additional 50 workers.
10-100 workers	No	Yes	1 First Aid Kit is to be provided.	1 Officer for 25-50 workers. 2 Officers for 51-100 workers. Additional Officer for every additional 100 workers.
25 or less workers	Yes	No	1 First Aid Kit for first 25 workers. 1 additional kit for every 50 workers thereafter.	1 Officer for 25 workers. 2 Officers for 25-50 workers. Additional Officer for every additional 50 workers.
10 or less workers			1 First Aid Kit.	Risk assessment conducted to identify the need to provide a First Aid Officer.

FIRST AID KIT GUIDE

HIGH RISK WORKPLACE

EXAMPLE: Construction, Warehousing, Manufacturing, Laboratories
 DEFINITION: A workplace where workers are exposed to hazards
 RECOMMENDATION: 1 first aid kit should be provided on site for at least every 25 people

LOW RISK WORKPLACE

EXAMPLE: Office Buildings, Home Offices, Retail Shop, Cars/Trucks
 DEFINITION: A workplace where workers are not exposed to hazards
 RECOMMENDATION: 1 first aid kit should be provided on site for at least every 50 people

FIRST AID SITE ASSESSMENT

A periodic assessment schedule of your workplace first aid equipment will allow you to identify hazards and determine typical injuries or illness that may require rapid treatment. The assessment should also consider number of employees and work area design as first aid should be easily accessible and available within minutes of the injury location.

ASSESSMENT GUIDELINES FOR WORKPLACE FIRST AID

As business operations are constantly changing to meet customer demands your workplace first aid requirements may also require adjustments.

FIRST AID RECOMMENDATIONS

STEP 1 | HAZARDS

Identify potential causes of workplace injury and illness

STEP 2 | INJURIES

Assess the risk of workplace injury and illness

STEP 3 | REMEDY - WHAT FIRST AID IS REQUIRED

Choose the First Aid Kit that is suitable for the workplace

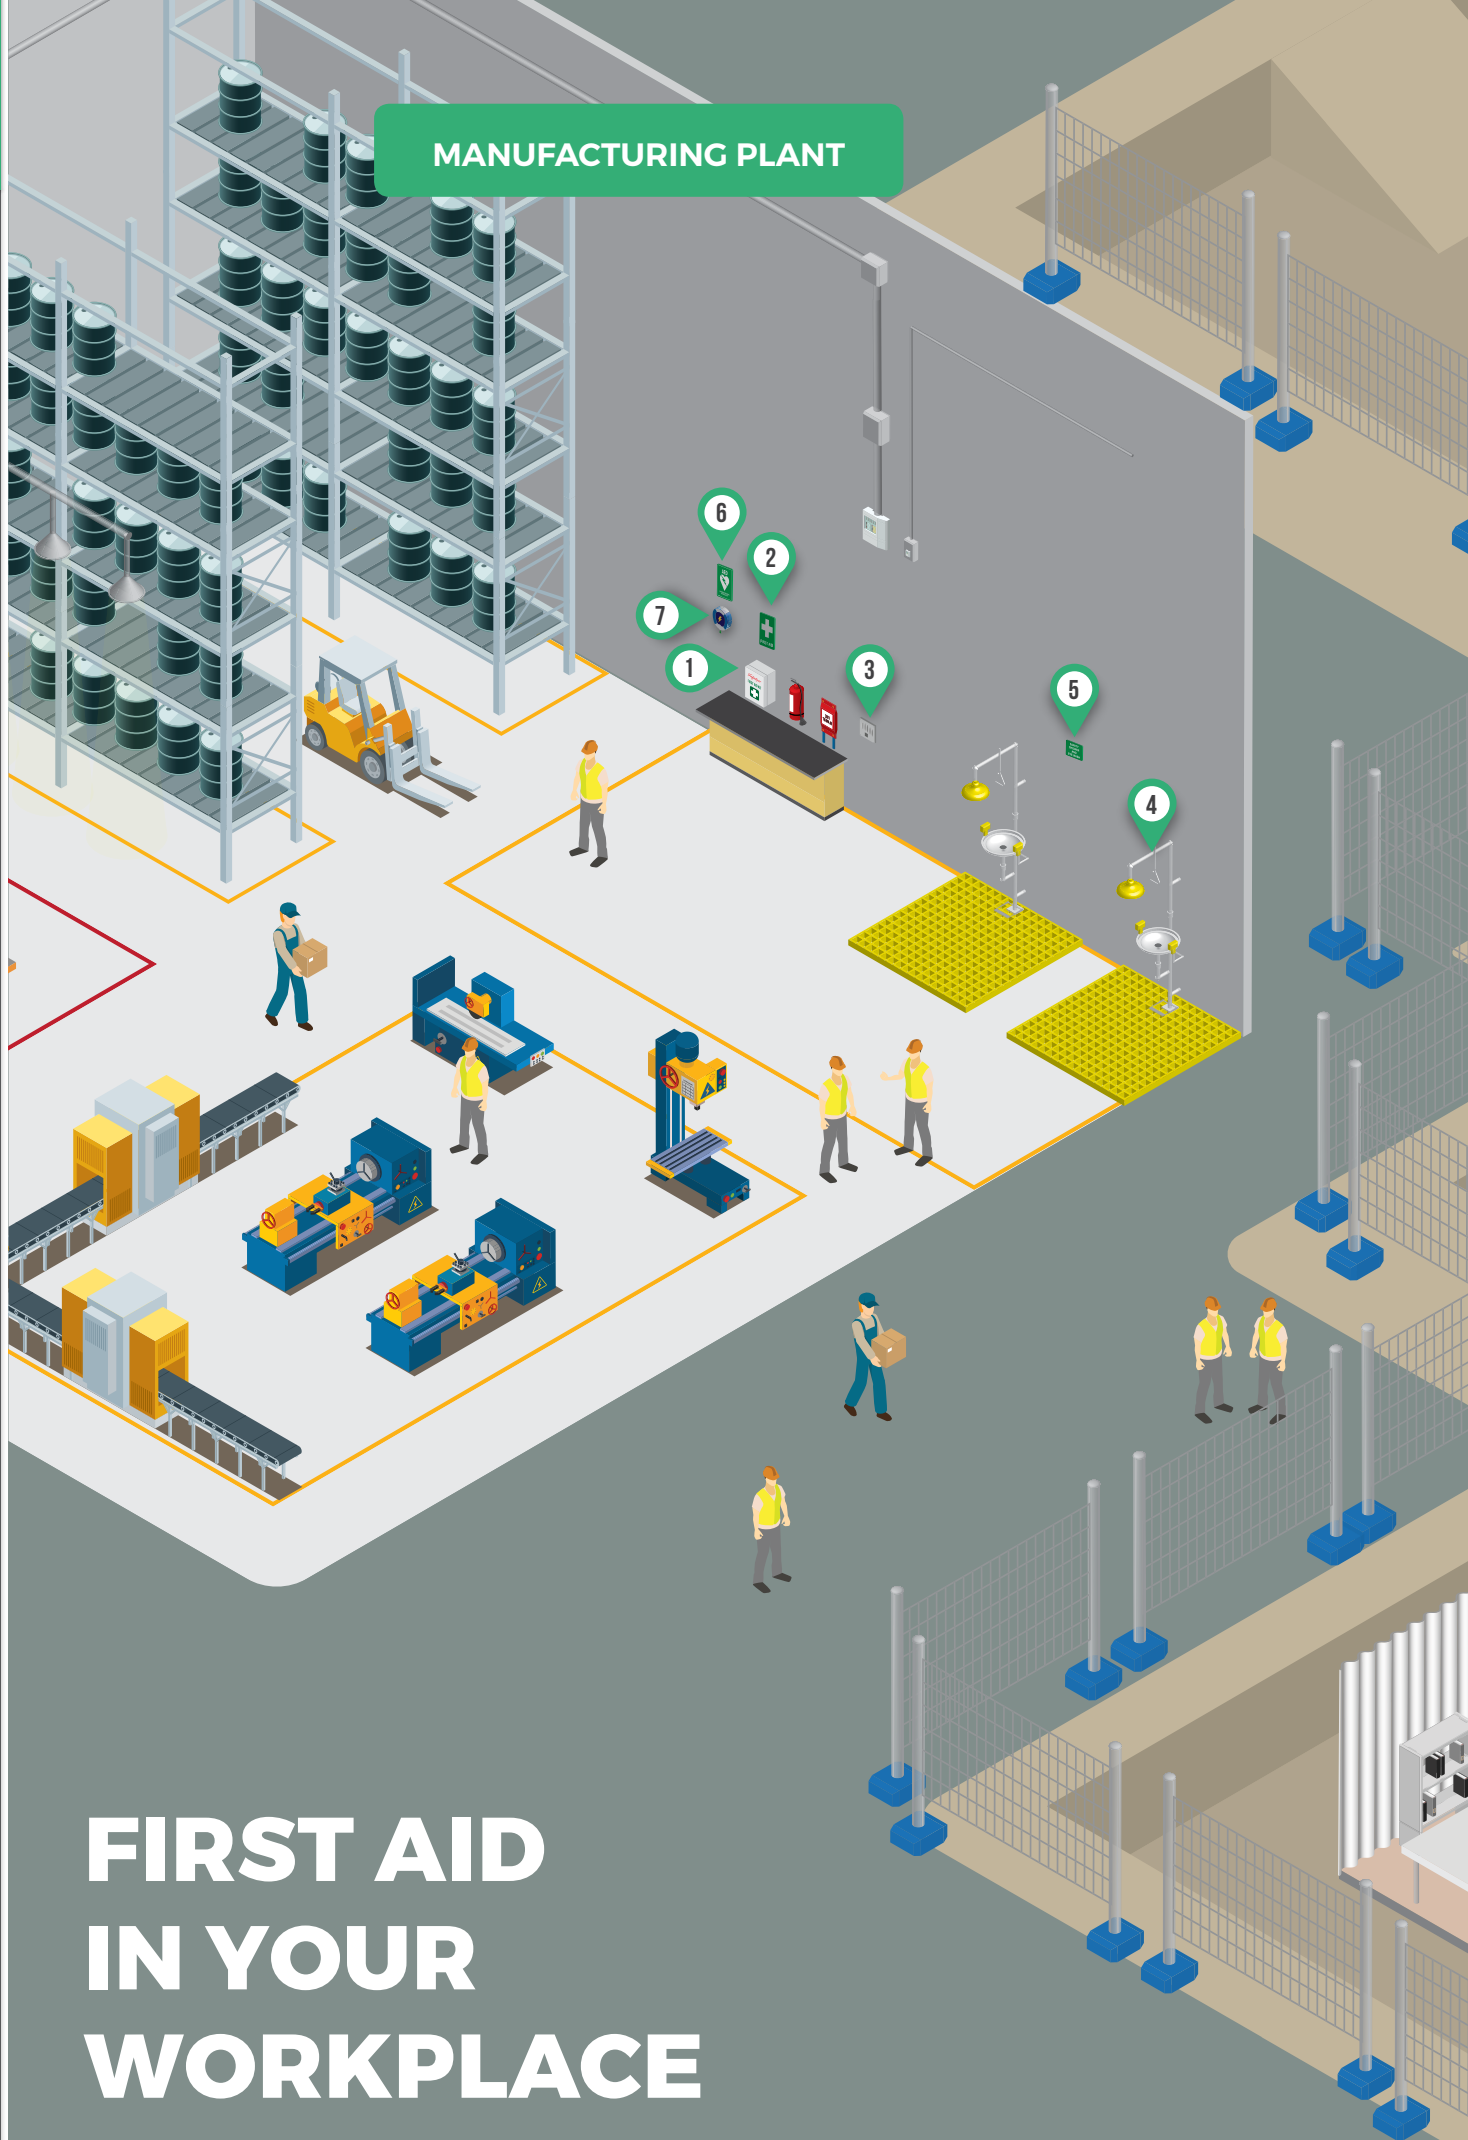

STEP 4 | REVIEW FIRST AID TO ENSURE EFFECTIVENESS

Choose additional Add-On Packs to ensure the whole workplace contains adequate First Aid on site at all times.

Number of people designed to assist workplace rating of "Low Risk"

Number of people designed to assist workplace rating of "High Risk"

A construction worker wearing a blue hard hat, safety glasses, and a plaid shirt is sitting on a rusty metal structure. He is looking down at something in his hands. In the background, there is a yellow excavator. The image is framed by a green border.

First Aid Supplies

After you have done your worksite assessments, a standard first aid kit may not cover the potential injuries that could occur. Depending on the work being carried out, some types of workplaces may require additional first aid items in areas where specific types of injuries or illnesses can happen, such as bandages, splints, dressings and eye wash units.

Disposable Resuscitation Shield

- ▶ Prevent cross contamination
- ▶ Large surface area to provide extra protection
- ▶ Compact, hygienic and easy to store
- ▶ Necessity for all first aiders

STANDARD PACKAGE: 1

PART NO.	DESCRIPTION
856758	Disposable Resuscitation Shield

A close-up photograph showing a person in a red uniform and white gloves applying a white bandage to a person's foot. The person being treated is wearing a yellow shirt. The scene is set on a brick floor. The image is framed by a green border.

First Aid

Room & Rescue

Providing appropriate administering and rescue equipment such as immobilisation, resuscitation and defibrillation can reduce the risk of permanent injury and/or fatality. A first aid room is also recommended for low risk workplaces with 200 workers or more and high risk workplaces with 100 workers or more.

3 FIRST AID ROOM AND RESCUE ESSENTIALS

DEFIBRILLATORS

LIFEPAK® CR2

▼ 877885

- ▶ Self-monitoring
- ▶ Option of wireless connectivity
- ▶ Fastest time to first shock
- ▶ cprINSIGHT™ Analysis Technology
- ▶ Layered design with easy to follow bold graphics. Both trained and untrained AED users clearly know how to begin.
- ▶ Highest Available Escalating Energy - Up to 360J for more effective shocks as needed.
- ▶ QUIK-STEP™ Electrodes - Peel directly off the base for faster placement.
- ▶ cprINSIGHT Analysis Technology - Analyses for shockable rhythm during chest compressions with no need to pause.
- ▶ Metronome and CPR Coaching - Sets an effective pace and audibly guides users.
- ▶ ClearVoice™ Technology - Detects background noise and adjusts volume accordingly for clear instruction.
- ▶ Fully Automatic - Available in fully or semi-automatic models.
- ▶ Bilingual - Toggle between two pre-set languages when using the device.
- ▶ Child mode delivers lower energy levels appropriate for young children without having to change electrodes.
- ▶ LIFEPAK® TOUGH™ - IP55 rating for challenging environments. Comes in carry case.
- ▶ Backed by an 8-year warranty.

Rated easiest to use, easiest to hear and highest in overall user confidence than leading competitive AEDs by AED users, cprINSIGHT™ analysis technology analyses and detects if a shock is needed during CPR—significantly reducing pauses in chest compressions.

HEARTSINE® SAMARITAN® PAD 350P

- ▶ Semi-Automatic shock delivery
- ▶ CPR coaching - Metronome for correct speed CPR
- ▶ Portable and lightweight 1.1kgs, with carry case included
- ▶ 8 year warranty
- ▶ IP56 Dust and Moisture ingress protection - the highest in the industry
- ▶ Software updates via USB
- ▶ Automatically runs self-check each week

Sudden Cardiac Arrest (SCA) is a leading cause of death globally. Response time is critical for survival. The Samaritan® PAD 350P is designed especially for use in public areas by providing a sophisticated defibrillator for adult or pediatric use, inside a lightweight and easy-to-operate system. The Samaritan PAD 350P defibrillator is a semi-automatic unit that features easy-to-understand, visual and voice prompts that guide a user through the process including CPR coaching.

HEARTSINE® SAMARITAN® PAD 360P

- ▶ Fully Automatic shock delivery
- ▶ CPR coaching - Metronome for correct speed CPR
- ▶ Portable and lightweight 1.1kgs, with carry case included
- ▶ 8 year warranty
- ▶ IP56 Dust and Moisture ingress protection - the highest in the industry

The Samaritan PAD 360P defibrillator is an automatic unit that features easy-to-understand, visual and voice prompts that guide a user through the process including CPR coaching.

HEARTSINE® SAMARITAN® PAD 500P

- ▶ Semi-Automatic shock delivery
- ▶ Real-time CPR feedback - detects the depth and rate of CPR being applied
- ▶ Easy-to-Follow Visual and Verbal Guides
- ▶ Portable and lightweight 1.1kgs, with carry case included
- ▶ 8 year warranty
- ▶ IP56 Dust and Moisture ingress protection - the highest in the industry
- ▶ Software updates via USB
- ▶ Automatically runs self-check each week

More than a simple AED, the HeartSine® samaritan® PAD 500P with integrated CPR Advisor™ meets the needs of two key links in the chain of survival. Not only can the SAM 500P deliver a lifesaving shock, it provides real-time visual and verbal feedback to the rescuer on the force and rate of CPR compressions during an SCA resuscitation – effectively assisting the rescuer to perform CPR

854017	Heavy Duty Biohazard Bag	450 x 750mm	10

Syringe Picker

- ▶ Easy and effective way of picking up syringes
- ▶ 15cm long
- ▶ Ensure pick-up occurs at the cross member of syringe

STANDARD PACKAGE: 1

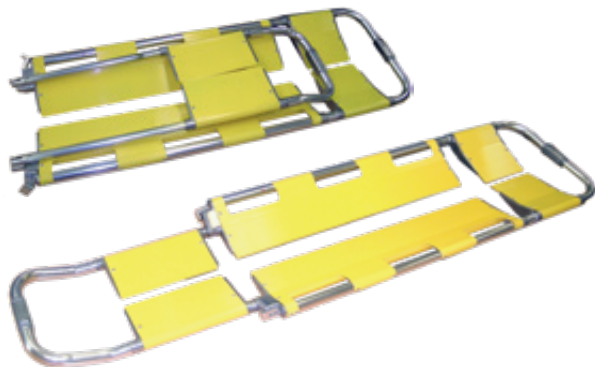

PART NO.	DESCRIPTION
853131	Syringe Picker

STRETCHERS

Scoop Stretcher

- ▶ Portable stretcher constructed of aluminium
- ▶ Designed to immobilise casualty minimising further trauma.
- ▶ Hinged at both ends and includes restraints.

DIMENSIONS: 1640 x 430 x 80mm (L x W x H)

WEIGHT: 9kg

LOAD CAPACITY: 150kg

STANDARD PACKAGE: 1

PART NO.	DESCRIPTION
871354	Scoop Stretcher

Flat Spine Board

▼ 871355

- ▶ Tough, durable, lightweight and capable of keeping a body afloat
- ▶ X-Ray translucent
- ▶ Multiple handholds allow for ease of lifting and manoeuvring
- ▶ Use in cases of trauma where there is a possibility of spinal injury

DIMENSIONS: 1640 x 430 x 80mm (L x W x H)

WEIGHT: 7.5kg

LOAD CAPACITY: 150kg

STANDARD PACKAGE: 1

PART NO.	DESCRIPTION
871355	Flat Spine Board
873188	Nylon Stretcher Restraints 5cm x 2m

Basket Stretcher

▼ 873188

- ▶ Light and portable
- ▶ Splits into two sections for compact storage
- ▶ A spine board, backboard or scoop stretcher should be used to aid patient lifting in and out of the Basket Stretcher.

DIMENSIONS: 2170 x 430 x 90mm (L x W x H)

WEIGHT: 20kg

LOAD CAPACITY: 150kg

STANDARD PACKAGE: 1

PART NO.	DESCRIPTION
871357	Basket Stretcher
873188	Nylon Stretcher Restraints 5cm x 2m

Back Board

▼ 871356

- ▶ Tough, durable and lightweight the Backboard offers a buoyant solution for water rescues
- ▶ Compatible with basket stretchers
- ▶ Multiple handholds allow for ease of lifting and manoeuvring

DIMENSIONS: 1750 x 450 x 50mm (L x W x H)

WEIGHT: 7.5kg

LOAD CAPACITY: 150kg

STANDARD PACKAGE: 1

PART NO.	DESCRIPTION
871356	Pro Back Board
873188	Nylon Stretcher Restraints 5cm x 2m

Lightweight Pole Stretcher

- ▶ Ideal basic emergency first aid stretcher
- ▶ Sturdy lightweight aluminium folding pole construction

854133	Lightweight Pole Stretcher

First Aid

Signs & Visuals

It's important to ensure first aid officers and equipment are easily located in an emergency. Displaying well-recognised, standardised first aid signs and posters will assist in locating first aid equipment and administering first aid in an emergency.

	877738	Medium
	877739	Large
	877740	X Large
	877741	XX Large

FIRST AID ROOM REQUIREMENTS

FIRST AID ROOM REQUIREMENTS

According to the latest Code Of Practice, First Aid in the Workplace, a first aid room is recommended for:

**LOW RISK WORKPLACES
WITH 200 WORKERS OR MORE**

**HIGH RISK WORKPLACES
WITH 100 WORKERS OR MORE**

A first aid room should be established at the workplace if a risk assessment indicates that it would be difficult to administer appropriate first aid unless a first aid room is provided.

For example, workplaces where there is a higher risk of serious injury or illness occurring that would not only require immediate first aid, but also further treatment by an emergency service, may benefit from having access to a dedicated first aid room.

The contents of a first aid room should suit the hazards that are specific to the workplace.

The location and size of the room should allow easy access and movement of injured people who may need to be supported or moved by a stretcher or wheelchair.

First Aid Room Reference List

FIRST AID ROOM SHOULD:

Be located within easy access to a sink with hot and cold water (where this is not provided in the room)

Be well lit and ventilated

Offer privacy via screening or a door

Have an appropriate floor area (14 square metres as a guide)

Be easily accessible to emergency services (minimum door width of 1 metre for stretcher access)

Have an entrance that is clearly marked with first aid signage

A market leading manufacturer of industrial safety and identification solutions, Brady partners with businesses to ensure safe work practices, so productive business outcomes are achieved.

Brady's long standing involvement in the Australian market has meant we understand that each business is different and requires tailored solutions. Importantly, we also understand compliance and provide products that meet legislative requirements.

Headquartered in Milwaukee USA, Brady has an established global footprint across a diverse range of businesses. Our commitment is to provide our customers essential safety resources that identify and protect people, premises and products.

ALL THE SAFETY AND IDENTIFICATION PRODUCTS YOU NEED

Consolidating suppliers can save you time and money. With so many brands under the one roof, we have over 50,000 products available. We want to make sure every single customer walks away from Brady with exactly what they are looking for.

IN-HOUSE MANUFACTURING AND FAST DELIVERY

We know speed of delivery is important. Our in-house production department runs at full speed every day, manufacturing a range of products from safety signs and labels, to engraved tags and wire identification products.

We have a dedicated team of 30 operators working 10 machines daily, so we can provide our customers with a quick turn around on orders.

OUR COMPLIANCE EXPERTISE

Our speciality is our ability to ensure our customers' peace of mind, knowing that their compliance obligations are fulfilled. We achieve this by delivering the latest information on relevant workplace safety, supported by our national sales team who are your trusted business advisors for workplace safety and compliance.

A CULTURE OF MAKING IT EASY FOR THE CUSTOMER

Our employees share common values like integrity and respect. We put our customer at the centre of everything we do, working with them to find solutions for their needs. We do this with friendly service because that's who we are.

WE OFFER ONLY BEST-IN-CLASS PRODUCTS

We ensure we partner with suppliers who share our sense of integrity and ethical practices. We partner with best-in-class local and overseas vendors, making sure we bring to market quality products that our customers can rely on.

UNIQUE PRODUCT OFFERING

Brady's global Research and Development with over 250 technologists allow us to focus on areas of strength and differentiation, expand our portfolio of products and continually invest in new technology platforms.

The content is provided as a general recommendation and should not be used as a substitute for information provided by your local State or Territory Work Health & Safety regulatory authority. The onus for assessing each workplace rests with all Australian individual workplaces and sites managing their own risk profile. Brady /Trafalgar First Aid makes no representation as to verifying the compliance rating of each workplace/site in respect of the Safe Work Australia First Aid Code of Practice.
